

12.11.2010 | 8:30 - 13:30 @ TIS innovation park, Bolzano-Bozen, Italy

# International **Free Software** Conference

**SFScon**  
South Tyrol Free Software Conference

# Einladung

Freie Software ist ein zentrales Thema in Südtirol und hat zunehmend, sei es für lokale Unternehmen als auch für die öffentliche Verwaltung, an Bedeutung gewonnen.

Um Unternehmer und Fachleute in ihren Entscheidungen bezüglich ihrer IT-Infrastrukturen zu unterstützen, stellt die Konferenz verschiedene Best-Practice-Cases vor und fördert die Schaffung von Synergien.

Die SFScon ist eine Initiative des Bereiches Digitale Technologien und zielt darauf ab, die Anwendung von Freier Software in der Wirtschaft zu verbreiten, um gleichzeitig den Innovationsgrad sowie die Wettbewerbsfähigkeit in Südtirol zu steigern.

# Invito

Il Software Libero è una tematica di grande rilievo in Alto Adige e ha dimostrato sul territorio la propria importanza sia per le imprese, che per la Pubblica Amministrazione.

Per sostenere il management e gli esperti a operare scelte sulle infrastrutture IT, la conferenza presenta diversi casi di successo e contribuisce a creare sinergie tra le imprese, le istituzioni, gli enti di ricerca e sviluppo, nonché di formazione.

La SFScon è un'iniziativa dell'Area Tecnologie Digitali volta a sostenere l'utilizzo del Software Libero nel mondo economico, per il raggiungimento sul territorio di un più alto grado di innovazione e di una maggiore competitività.

# Invitation

Free Software is a meaningful topic in South Tyrol and has demonstrated its importance in the local economy as well as in public entities.

To support management decisions and experts about IT infrastructures, the conference presents best-practice-cases and contributes to create synergies.

The SFScon is an initiative of the Digital Technologies Department and supports the introduction of Free Software on the local territory. At the same time the level of innovation activity and the competitiveness should be supported.
